Pastel Description

Paste Group (lenses + figurines):

Thickness 1.0 cm

Handle width

Form (lenses):

C

Height 4.9 cm

Handle thickness

Width 10.9 cm

Diameter

Full

Verbal Description

Broken candelero with 7 complete and 5 partial holes preserved. Appears to have been made by using a finger to make the holes. Some fingernail marks appear faintly. Level of firing difficult to determine b/c of extent of burning from use. Bottom of hole interiors very evidently heavily burnt, with burning extending up at least halfway up the chambers. There is possible slight darkening to top of holes, especially those closer to center of candelero. Top of candelero also shows signs of smoke marks around the edges of center few holes. There are no signs of smoke near the vents. The vents are irregularly placed, 1.2 - 2.1 cm from top. Vents are about 0.5 cm wide and 0.4 cm in height. They are irregularly shaped. There is no decoration visible outside of a very thin white slip over all surfaces. Paste interior color = 7.5-10 YR. Slip color 2.5Y 7/2. Holes range in depth 2.6-32 cm.

Diam = 12 cm.
